

MODEL NUMBER:

**WT1.5M**

**WOOD TRIPOD 1.5 METERS TALL (IT'S REALLY 1.64M)**

**The WT1.5M Antenna Tripod is used to position, support, and stabilize all of The EMC Shop and most other compliance measurement antennas.**

The WT1.5M wooden Tripod comes with a spring loaded 1/4-20 male thread for mounting all of The EMC Shop and most other compliance measurement antennas. This wood tripod can hold up to 30 lbs. (13.6 Kg). Each wooden leg is adjustable independently of each other. They can adjust from 38" in length to 63" and locked up to a 90-degree angle, allowing an infinite number of settings. The adjustability of this tripod won't limit your ability to work on hillsides or in cramped corners in the lab. The WT1.5M comes with rubber feet ideal for lab environment testing. This tripod is also well suited for outdoor use, simply reverse the tripod legs to expose the spiked feet.
