

MODEL NUMBER:
LISN- DO160
LINE IMPEDANCE
STABILIZATION NETWORK

LISN-DO160-100

DESCRIPTION

The LISN-DO160-100 line impedance stabilization network (LISN) are designed to meet the requirements of RTCA DO-160 (10uF capacitor included internally), DEF-STAN 59-411, and Euro Fighter specifications. LISN's are available in multiple configurations and a wide variety of terminations. Additional customizations can be made at request including voltage, current ratings, number of circuits, etc.

LISN-DO160-100 INCLUDES:

- 9 kHz to 400 MHz, 5 uH, 100A LISN
- QTY 2 Superior Connector Plugs
- Calibration Certificate
- 4 Year Warranty

IMPEDANCE TO FREQUENCY
